Professional Experience

01/2021 – present
Gurugram, India

SDE 2

Dresma AI

- **Leads a proficient development team:** a React Native group of five excelling in project leadership and effective team management.
- Instrumental in API, enhancing product functionality with an emphasis on innovative design and user-centric experiences
- Engaged in strategic collaboration with product managers for feature development and prioritizations, incorporating efficient automated testing processes.
- Implemented **React Native Reanimated** v2 for dynamic animations, managing deployments to Apple App Store and Google Play Store.
- Utilizes a broad range of development tools and libraries, including Redux and React Navigation, to maintain high application performance and scalability.
- Integrated **in-app purchases** (IAP) and payment modules, including **Paddle and Stripe**, to enhance payment processing functionality.
- Owned feature development lifecycle from inception to production deployment.
- Performed code reviews for team members and participated in debugging sessions to ensure code quality and resolve issues.

03/2020 – 01/2021
Gurugram, India

Senior Software Engineer

Dresma Pvt. Ltd,

- Collaborated on the development of an in-house tracker system aimed at enhancing user experience and service delivery.
- Integrated our web application with **Shopify** platform to expand functionality and streamline operations.
- Designed and developed crucial components and modules in **React.js**, and executed API integrations to elevate project functionality.
- Developed APIs using **Node.js** and **Express Js** to facilitate user journey in our in-house project.
- Designed API schemas and controllers, implementing robust validation processes for our in-house project.

09/2019 – 03/2020

MERN stack Developer

Differential Edge Pvt. Ltd.

- Integrated login functionality across backend and frontend using Node.js and React, ensuring a seamless and secure user authentication experience.
- Documented APIs with **Swagger** using **Node.js**, Express.js, and JSON, ensuring clear and comprehensive API documentation for efficient development and integration processes.
- Developed a fundamental component tailored for our in-house project, laying a solid foundation for further feature implementation and project expansion.
